**WC Docket No. 10-90  
Notice of Existing Broadband Coverage Within  
CenturyLink Proposed CAF Phase I Round 2  
Deployment Census Blocks**

Pursuant to Public Notice DA 16-1072, this letter serves as notice to the FCC and to CenturyLink that RTC Communications, Corp (IN) is a telecommunications provider currently offering qualifying broadband service in some of the 9,703 “unserved” and “underserved” census blocks CenturyLink has recently proposed to serve using CAF Phase I incremental support.

RTC Communications, Corp offers fixed Internet speeds of 3 Mbps downstream and 768 kbps upstream or higher in the following census block:

181039520003024  
181039520004007  
181039520004011  
181039520004086

As a result, the above census block should be considered “served” for the purposes of CenturyLink’s upcoming 54.312(c)(4) certification. If you have any questions, please contact me at [Dusty.Johnson@VantagePnt.com](mailto:Dusty.Johnson@VantagePnt.com).

Sincerely,

Dusty Johnson  
Vice President of Consulting  
On Behalf of RTC Communications, Corp (IN)
